

San Diego Coalition to Preserve our Common Home

The coalition brings together and empowers clergy, parishioners, youth, activist community and social justice organizations, and union members to be leaders in the climate justice movement and establish a moral framework for climate action.

All of the world's religions and ethical systems recognize that we are part of creation – inextricably bound up with earth and one another. The stakes are high for the future of the world's children and the diversity of all life. It is not enough just to talk about it.

I support the Preserve our Common Home Statement

Please do not include my name/affiliation on the website

I want to volunteer! Please contact me.

I commit to change my personal behavior and ask my affiliated institutions, national and international leaders to:

- ✓ Limit greenhouse gases by all means and invest in clean energy
- ✓ Change our economic system to one that is more ethically sensitive to environmental protection and the equality of all nations and individuals
- ✓ Raise awareness that we are one world family, sharing the limited resources of our common home striving to live together with dignity and in peace

I plan to attend Answering Earth's Call: an Interfaith Forum on Climate Justice Sept 24 @6:30 pm. St. Paul's Cathedral.

San Diego Coalition to Preserve our Common Home

All of the world's religions and ethical systems recognize that we are part of creation – inextricably bound up with earth and one another. The stakes are high and the future of the world's children and the diversity of all life depends on whether we can muster the courage to act in ways that challenge economic and political business as usual. Even as more and more of us recognize the clear scientific evidence of this threat to the natural world, including other species and human beings, it is not enough just to talk about it.

I commit to change my personal behavior and ask my affiliated institutions, national and international leaders to:

- ✓ Limit greenhouse gases and drastically reduce our carbon footprint by all means, including divesting from fossil fuels, investing in clean energy sources and making sustainable, humane food choices;
- ✓ Change our economic system from being solely profit driven to one that is more ethically sensitive to environmental protection and the equality of all nations and individuals;
- ✓ Raise awareness that we are one world family, sharing the limited resources of our common home striving to live together with dignity and in peace.
